 Portfolio available upon request

Professional Summary

Licensed Mechanical Engineer with 2+ years of experience in mechanical design, CAD modeling, and engineering documentation across automotive OEM and industrial systems. Experienced in international collaboration, drawing standardization, and legacy CAD data migration. Currently involved in startup product development. Proficient in CATIA, PTC Creo, SolidWorks, and AutoCAD, exposure to finite element analysis (FEA) within CAD-integrated simulation environment, with working knowledge of ISO standards and supplier coordination.

Professional Experience

Mechanical Engineer

HG-Engineering Solutions | Startup | November 2025 – Present

- Converted legacy industrial drawings from **AutoCAD to PTC Creo**, ensuring accurate 3D model reconstruction following ISO, ASME and API standards.
- Leading **mechanical research, product design development, and supplier coordination** for a motorized stacker product (ongoing), including **concept modeling and technical validation**.
- Prepared **technical business proposals** for international clients, including service definition, compliance considerations, and project planning.
- Developed **CAD drawing templates and documentation standards**, establishing consistent engineering workflow and design output quality.
- Developed an **ISO 9001:2015-aligned Quality Management System (QMS)**, defining processes, documentation standards, and audit readiness.

Design Engineer

Mitsuba Philippines Technical Corporation Center, MPTC | Makati City | May 2024 – August 2025

- Led a **team of 20** in delivering **385 assembly drawings**, coordinating with Japanese engineers on standard updates and supplier changes, ensuring **BOM accuracy and compliant documentation**.
- Supported **Rivian Wiper System** and **Audi/BMW** monthly drawing updates, delivering precise **2D and 3D** updates using **CATIA V5**.
- Translated **technical Japanese engineering documents** into English and collaborated with cross-national teams from **Japan, Germany, and the USA**.
- Member of **energy-saving committee**, contributing to a **6% quarterly electricity cost reduction**.

Transcript Processing Associate

Accenture | Mandaluyong City | September 2022 – February 2024

- **Processed billing data** using **SAP FI/MM** with consistent 100% quality performance.

Engineer Intern

JEM Engineering Supply and Services | Quezon City | October 2021 – November 2021

- Completed **200 hours of internship** in **fire protection engineering**.

Key Projects:

Professional Projects (Mitsuba)

- **Rivian Wiper System** – Contributed to **9-month design and documentation cycle** for the wiper assembly in **CATIA**; produced **BOMs and 2D drawings** to support the workflow.
- **385 WM07C Motor Assembly Standardization** – Led **cross-brand standardization** of 385 assembly drawings, improving documentation consistency and ensuring **ISO/JIS-compliant BOM integration**.

Independent / Portfolio Projects

- **Wiper Motor Linkage Project** – Developed **full assembly** in PTC Creo, including **3D modeling, exploded views, and technical documentation**.
- **Buffer Tank Project** – Created SolidWorks **3D model**, performed **FEA** using SolidWorks Simulation and created **2D manufacturing drawing** based on industrial reference design.

Education

Bachelor of Science in Mechanical Engineering

Technological Institute of the Philippines | Quezon City | 2022

- DOST-SEI Scholar

Certifications and Trainings

- **Registered Mechanical Engineer** - PRC (2023)
- **Basic Occupational Safety and Health Officer 2** - RBA-EHS (2023)
- **Introduction to 3D Printing of Metals: Wire-based DED** - DOST-MIRDC (2026)
- **CAD and Modeling:** AutoCAD 2D/3D, SolidWorks, PTC Creo, CATIA V5
- **Quality and Standards:** Quality Control, Front & Rear Wiper Standards (MPTC)

Technical Competencies

- **CAD & Simulation Tools:** CATIA, AutoCAD, SolidWorks, PTC Creo, CAD-Integrated FEA
- **ERP & Office Software:** SAP (Financial Accounting), Microsoft Office, Canva
- **Standards & Methodologies:** ISO/JIS/ASME/API Standards, Drawing Management, Technical Writing, Quality Control
- **Collaboration:** Cross-functional Teamwork, Project Coordination, Process Optimization
